

BIG CONEY ISLAND CHANGES

SEA FRONT PLANS OF OWNERS OF THE EAST END.

Promenade Will Be a Continuation of the Coney Island Boardwalk. Motor Road by the Sea. Contracts for Work That Will Cost More Than \$200,000.

The Manhattan Beach Estates, a corporation owning the Oriental and Manhattan Beach hotels and more than 2,000 lots adjoining on Coney Island, yesterday awarded contracts calling for the payment of more than \$200,000 and paved the way for the establishing of a private and civic improvement more than five miles in length, which will make New York the possessor of one of the finest ocean view promenades and driveways in the world. The first instalment of the Manhattan Beach part of the scheme is to be finished within three months.

The SEN told a week ago about the Greater Coney Island Company having been incorporated for the purpose of building a boardwalk 50 feet wide from the foot of West Fifth street to West Thirty-seventh street near the entrance to Sea Gate at an outlay of \$900,000, and it was explained at the time that the entire amount would be subscribed by the beach front property holders, who alone would be entitled to take stock in the organization.

The plan of the Greater Coney Island Company, of which Desmond Dunne, a former Commissioner of Public Works, is president, calls for the construction of a walk more than 6,000 feet in length at a distance not less than 300 feet in the ocean from mean high water mark, the land between the present building line and the proposed improvement to be occupied by hotels, shops and other structures of a design to be approved by a committee. It was hoped by Mr. Dunne and his associates, among whom are such large holders of Coney Island realty as Folger Bros., Fred Henderson, S. L. Jackson, George C. Tidy, William J. Ward, Theodore Kramer, Joseph Huber and Louis Stanch, whose assessments this year run close to the \$5,000,000 mark, that the city would see its way clear to build from the foot of the Ocean Parkway across the park the distance necessary to effect a junction with the private promenade. It was suggested at the time that the proper treatment of the scheme would be to make it thoroughly comprehensive and include the Engeman, Brooklyn Rapid Transit, Herriman and Manhattan Beach Estates fronts, comprising the entire five mile front of the island, and this plan seems to be assured. The action of the Manhattan Beach Estates yesterday pledges their part of the improvement, the importance of which cannot be overestimated by those New Yorkers who have hitherto gone to Atlantic City or other distant points to get their beach of the sea.

The Manhattan Beach Estates some months ago got permission from the United States Board of Engineers to change their bulkhead line along their Atlantic boundary, and the new sea wall, which is to be constructed by O'Brien Bros. of this city at a cost of \$205,000, the contract for which was signed yesterday, is to be built of riprap construction after plans by Engineer Charles S. Voorhees of Brooklyn, who is also the engineer of the Greater Coney Island Company. This wall is to be 40 feet wide at the base and 20 feet at the top, and the apex will be 8 feet above mean high water. This barrier is to be 100 feet south of the present bulkhead, and the contract for filling this space, which will be so much additional land for the company, was awarded yesterday to Walter H. Gahagan of Brooklyn, who will receive \$120,000 for his dredging operations.

On the top of this sea wall and part of the adjoining walk will be constructed a concrete walk 30 feet wide, the outside of which will have ornamental railings. Ornate poles for electric lighting will be a feature and on the inner side of the walk, separated by a railing, will be an automobile drive 20 feet wide—a tribute to the thousands of motorists who have hitherto been confined to runs which gave scant view of the sea. The restriction of the motor drive to 20 feet means that cars must enter the Manhattan Beach Estates at a point on Neptune avenue near the Long Island crossing and thence pass through the Shore Boulevard, which skirts the southern limits of Sheepshead Bay, turning to the right at the end of the boulevard and entering the special avenue and finally passing out at a point near the Long Island railway's station on the ocean front.

The Manhattan Beach interests have an application now before the War Department for permission to reclaim the property to the east of their present holdings, which was washed away by the sea. This comprises a stretch of more than 100 feet and brings their extreme easterly holdings to a place opposite Rockaway Point, known locally as Point Breeze. It will add 1,000 lots to their property and will make their total holdings 800 acres. Old maps show that Coney Island measured fully seven miles from Point Breeze to Norion's Point thirty years ago, and as the United States Board of Engineers have approved the application of the corporation no fear is entertained of unfavorable action at Washington. The land formerly belonged to the Corbys, and the improvements, which are to be completed within three months on the property as it is now constituted, will be extended to the territory to be acquired later.

Engineer Voorhees has a complete plan for the scheme, and when his ideas are carried out Sheepshead Bay will be a mile or more that it is at present and the inlet will be at Point Breeze. Sheepshead Bay will be greatly improved as a pleasure resort, as the waters will be sheltered, bounded on the south by the Manhattan Beach improvement and on the north by Plum Island, the easterly half of which is owned by the United States Government, which acquired it ten or more years ago as a bomb proving station at a cost of \$90,000. The westerly half belongs to William A. Fuge-

THE HOUSE ADOPTS A GAG RULE

UNDER IT THE SPEAKER BECOMES A REAL CZAR.

No Bill Can Come Up Without His Consent and the Democrats Are Enabled Practically to Exercise the Veto—No Bill Can Pass Without Their Votes.

WASHINGTON, Feb. 20. A rule vesting Joseph G. Cannon with more autocratic power than he ever enjoyed in the memorable days that preceded the reform era was adopted in the House to-day. The rule also confers upon the Democratic minority of the House practically a veto power over all bills that may be reported in the remaining days of the session. Under the operation of the rule the Democrats may properly be said to be in the saddle in the House and to have the Republican majority at their mercy.

The rule was designed to expedite legislative business, but it was immediately recognized as a wonderfully perfect gag, surpassing anything of the kind that was ever foisted upon a subservient House in the days when the Cannon organization held complete sway. The gag was adjusted, however, with little or no complaint. A gurgler or two were heard from a few insurgents, but most of the progressives, nearly all the regulars and a majority of the Democrats looked pleased as John D. Dalzell, chairman of the Committee on Rules and Veterans' Affairs, yesterday crammed this one into place.

The filibuster over the omnibus claims bill had made it imperative to adopt measures that would accelerate business in the House. The jam was becoming disconcerting and threatened the defeat of one or more of the appropriation bills. This was recognized yesterday when the filibuster was broken, and so early to-day the Committee on Rules brought in a resolution which it believed would meet the situation. This provided that for the rest of the session a bill might be taken up under suspension of the rules, a majority of 100 being required. The Democrats did not like this rule and gave notice that it could not be passed. It was known of course that some of the insurgents would join with them, so Mr. Dalzell and the other Rules Committee members fearing the result of a hostile alliance of this character retired to fix up a new brew for the House.

After a time Mr. Dalzell returned. He then presented the rule, which was adopted and which will be the order in the House until Congress adjourns on March 4. Under this rule any bill may be taken up under suspension of the rules, two-thirds of the House concurring. As the Republicans have only a slim majority this enables the Democrats practically to exercise the power of veto, as no bill can be put through without the support of the minority.

The rule contains a provision that brought a broad smile to the grizzled countenance of Uncle Joe. Under it he is the master of the situation. No bill can come up without his consent. The rules being suspended for the time the Speaker may recognize whomsoever he pleases, setting aside if he wishes members who may rise to present privileged measures. Such measures do not go in the House as things stand now unless Uncle Joe is favorably inclined. With the rule set aside he may in fact run things just about as he sees fit and be a "real czar."

It will be possible under the terms of this drastic rule to limit debate on such a measure as the sundry civil bill, carrying an appropriation of \$150,000,000, to forty minutes.

Soon after the adoption of the rule the naval appropriation bill was taken up for consideration. Debate on this measure was permitted to continue until a late hour to-night. The rule was not invoked in that case for fear that further hostility would be aroused among the opponents of the two battleships provision, thus endangering the passage of the measure. Those who are fighting the authorization for two battleships insisted that time should be allowed for debate on them as well as on other provisions of the measure.

In objecting to the rule first presented, which would have authorized a suspension of the rules with the consent of a majority, the Democrats pointed out that there were provisions in pending bills that they desired to discuss. They insisted that if power to suspend the rules was permitted to rest with a majority they would be prevented from expressing themselves on a number of propositions, notably the tariff board provision in the sundry civil bill. The majority rule provision would have left the Republicans in absolute control every time they found it possible to keep their lines intact. As the rule now can be put in motion only when two-thirds concur, the Democrats are really in control after Uncle Joe has recognized a member to make a motion.

The House met at 10 o'clock this morning. The filibuster started yesterday by Representatives Gardner of Massachusetts and Parsons and Bennett of New York to force the expiation claims and the navy overcharge claim into the omnibus claims bill was resumed. It did not last long, however. The House was tired out as a result of the strenuous efforts of the last thirty-six hours and was determined to go ahead with other business. The back of the little filibuster was broken on the adoption of the rule presented by Representative Dalzell. Speaker Cannon recognized Representative Law of New York, who was in charge of the war claims bill, and the measure was passed without delay. This bill will now go to the Senate. It will be loaded there with the French spoliation claims and the naval overtime charges, and this means that it will die in conference.

TWO FRIDAYS IN THE HOUSE TILL LAST NIGHT
WASHINGTON, Feb. 20. The legislative day of Friday, February 17, came to an end in the House at 10 o'clock to-night. The House met at noon last Friday and "legislatively" it was Friday in the House all of Saturday, Sunday and to-day. When the House quit to-night it adjourned instead of taking a recess, an adjournment meaning that the end of a legislative day had been reached.

DEWEY'S "BRIEF-CUVEE" CHAMPAGNE
Dewey's "Brief-Cuvee" Champagne is a fine wine. It is not sold by the bottle, but by the case. It is sold by the case of 12 bottles. It is sold by the case of 24 bottles.
